Research Associate at AET Research Group  
Technical University of Munich  
St. Gilgen 14, 82205 Gilching

To whom it may concern,

I had the pleasure of working with Ms. Bahrouni as her project lead, and I was consistently impressed by her strong work ethic and proactive approach to problem-solving. She demonstrated exceptional communication skills, ensuring that both team members and stakeholders stayed informed and engaged. Ms. Bahrouni took the initiative to dive deeper into technical aspects, particularly in IoT-related tasks, and applied this newfound knowledge effectively. Her ability to manage issues, stay organized, and maintain a clear project overview helped the team stay on track despite challenges. Moreover, she welcomed feedback openly and used it as an opportunity to refine her approach. As a result, I can confidently recommend Ms. Bahrouni for any program that values adaptability, collaboration, and continuous growth.

Sincerely,

A handwritten signature in black ink, reading "Felix T.J. Dietrich". The signature is written in a cursive, flowing style with a large, sweeping loop at the end of the last name.
